OFFICE  
C. EMGRS

To meet the increasing demand for specialised truck modifications, and to be sure that future truck programs consider the specific requirements of the Australian customer, a new Engineering activity - Truck Engineering - has been added to our operation.

Effective November 13, 1967, Mr. R. M. Bell has been appointed Truck Engineer with the responsibility to implement the new activity. In this assignment, Mr. Bell will report directly to Mr. J. B. Burnell, Assistant Chief Engineer - Mechanical.
